PROFESSIONAL SUMMARY

Software Engineer with a strong background in full-stack development and project architecture. Experienced in managing small teams and overseeing the entire development process from concept to deployment, including direct client communication. Skilled in leading both frontend and backend development, with a proven track record of delivering high-quality solutions and taking full ownership of projects.

SKILLS

Programming languages	**Frameworks & Libraries**	**Databases**
Golang	Fiber/Echo, GORM, gRPC	PostgreSQL, SQLite, MS SQL
Node.js (TypeScript)	Express.js/Fastify, Nest.js	MongoDB, Redis

Cloud & Deployment	**Monitoring & Bug Trackers**	**Other**
AWS, Firebase, Azure	Prometheus, Grafana	Docker, K8s
Digital Ocean, Vercel	Jaeger, Sentry	

KEY COMPETENCIES

Software Development	Client Communication	Task Planning & Execution
Project Architecture	Agile Development	Problem-Solving
Team Management	Excellent communication	End-to-End Project Delivery

PROFESSIONAL EXPERIENCE

Full-stack Web Develop at ProgGenius   **Jan, 2023 - Present**

I lead development on multiple projects, handling both frontend and backend tasks. I've become proficient in **Golang** and **Node.js (TypeScript)**, building robust and scalable applications.
I manage project timelines efficiently, ensuring deadlines are met, and collaborate closely with teams and clients to deliver tailored solutions. I continuously enhance my skills and explore new technologies to improve the development process and deliver high-quality results.

Custor Solution   **Dec, 2022 - Jan, 2023**
Frontend Developer
At **Custor Solutions**, I worked on a fintech project using **Next.js, React, SCSS, Bootstrap**, and **Golang**.
I developed key features for both frontend and backend, focusing on performance and user experience. This role deepened my full-stack development skills in the fintech space.

Internship at Softserve   **May, 2022 - Sep, 2022**
Backend Developer
During my internship at **SoftServe**, I contributed to volunteer projects, utilizing **.NET**, **ASP.NET Core**, and **PostgreSQL**. I collaborated with teams to build and improve web applications, gaining hands-on experience in backend development and database management.

EDUCATION & CERTIFICATIONS

Bachelor of auto mechanical engineering

Graduate IT Step Academy | Computer Science
